

Technical Learning Record

A dated record of data, digital experience, cloud, DevOps, and GenAI learning

Author	Abhishek Tiwari
--------	-----------------

Edition	September 2026
---------	----------------

Personal study notes edited into a public portfolio edition. Internal identities, private URLs, credentials, and client information are excluded.

Learning journey

This record is based on the supplied training calendar, personal timeline, and completion evidence. It uses broad topic summaries so internal trainer details and private contact information stay private.

Period	Learning focus	Record
16 Sep - 16 Nov 2025	SQL, Python, and Adobe tools	Structured technical training
Nov - Dec 2025	Adobe Analytics and customer experience	Practice and applied notes
Jan - Feb 2026	AWS data engineering	AWS Glue and managed data workflows
Mar - Aug 2026	AWS and Azure cloud exploration	Cloud services, architecture, and delivery
2 Jun - 28 Aug 2026	DevOps MasterClass	Linux through Terraform and VPC networking
2026	Azure Fundamentals and Claude Architect Foundations	Completed credentials

Completed learning areas

Area	Completion date	Level shown in evidence
Data Driven Customer Experience	16 Dec 2025	Adept
Gen AI - Agentic AI - Beginner	27 Mar 2026	Adept
Gen AI - Core Gen AI - Beginner	4 Apr 2026	Adept
Gen AI - Prompt Engineering - Beginner	31 May 2026	Adept
Scripting - Python - A3:A5 Practitioner	3 Jul 2026	Adept
Agile Advanced	21 Aug 2026	Competent

Credentials

Credential	Evidence link
Microsoft Certified: Azure Fundamentals	Certificate file on Drive
Claude Certified Architect - Foundations	Public Credly credential and certificate file on Drive
